SKILLS

- Strong command of SQL, Airflow and Python
- API management: API connections as well as API creation. Experience using the most widely used AWS services (EC2, S3, Lambda, Redshift, Blue Spectrum, etc.)
- Use of Requests, BeautifulSoup, Selenium for Web Scraping processes.
- Knowledge of Dockar to optimize the processes of storage and deployment of Data-Analytics services.
- Dashboard creation in Superset
- Easy adaptation, resilience and high learning capacity.
- Handling of Databricks Notebooks for Data loading through Spark
- Management of Azure DevOPS for version control.

INGENIERO DE DATOS

Nicolás Navarro Felizzola

EXPERIENCE

- Aug 2024
Present

DATA ENGINEER
Keyrus. Medellín, Antioquía

In Keyrus my job is to collaborate in the implementation of the data architecture and the data lake. Develop and maintain ETL processes. Ensure the implementation of data quality processes and data lake integrity. Work on performance optimization and scalability of the data infrastructure. Participate in data analytics, big data processing and structured and unstructured data analysis projects. Contribute to the implementation of DevOps practices for efficient data management. Collaborate with other technical team members in the use of data for decision making.
- Jun 2023
Jul 2024

DATA ENGINEER
Foodology. Bogotá, Colombia

At Foodology I was in charge of obtaining, transforming and making available information for the different internal analyses of the company that impact its operability and decision making. I worked with diverse data and data sources using SQL, Airflow and the various best practices in data engineering. Additionally I focused on the development of API's, ETL's, automations and some analysis that allowed the organization to operate in the best way.

Achievements: In my time in the organization I was recognized as a Rocket (Top Performance) for my performance, effort and contributions to the OKRs of the organization.
- Jan 2021
Dec 2022

CIVIL ENGINEER JR
Ingesoluciones S.A.S. Manizales, Caldas, COL

As an Assistant Engineer I was in charge of reviewing the compliance of various activities in the construction sector, also the management of information to establish key actions in the execution of projects and add value to the analysis and approach of solutions to the opportunities for improvement that arose every day in the industry.

The main activities developed in the position were:

* Experience in the design and supervision of civil infrastructure projects.

* Knowledge in the planning and execution of civil works.

* Participation in the preparation of budgets and cost control in construction projects.

* Experience in the management of work teams in civil construction works.

* Collaboration in the coordination and follow-up of activities in civil engineering works.

* Participation in the preparation of technical reports and documentation in infrastructure projects.

* Experience in the supervision of building and urbanization works.
- Dec 2018

RETAIL SALES CONSULTANT
Tennis S.A. Manizales, Caldas, COL

During my time in this position, I focused on deeply understanding client needs, which honed my analytical skills and ability to translate complex observations into practical and strategic solutions.

Skills and competencies acquired:

* Attention to Detail: I acquired the acumen to pay attention to every detail, no matter how small it may make, every detail counts to maximize sales and satisfy the customer.

* Effective Communication: Communicating products and promotions effectively to customers allowed me to develop clear and persuasive communication skills.

* Information Management: I handled inventory information and customer data, which requires a high degree of organization and information management.

* Problem Solving: I faced daily challenges, from managing inventories to meeting difficult customer expectations, developing sharp problem-solving skills

EDUCATION

- Feb 2019

INGENIERO CIVIL
Universidad Nacional de Manizales, Caldas, Colombia. COL

Achievements:

* In my time at the university I was a member and captain of the Basketball team obtaining titles in each year of competition.

* I was on scholarship for academic performance the first 4 semesters of my career.

PROJECTS

https://github.com/iNicoNavarro
Writing a fashion blog about clothes and accessories called San Fran-ista. It includes photos and reviews and has 600+ followers.

CERTIFICATES & COURSES

- Inteligencia Artificial**
MinTIC
- AWS Cloud Practitioner**
Platzi - Jun 2023
- Spark, Hadoop, and Snowflake for Data Engineering**
Duke University - Jun 2024
- Virtualization, Docker, and Kubernetes for Data Engineering**
Duke University - Feb 2024
- Relational Databases (RDBMS) Essentials**
IBM - Mar 2024
- Python for Data Science, AI & Development**
IBM - Ago 2023
- Database Design and Basic SQL in PostgreSQL**
IBM - Mar 2023
- Curso Profesional de Python**
Platzi - Feb 2022
- Curso profesional de Arquitectura de Software**
Platzi - Jun 2022
- Curso de POO y Algoritmos con Python**
Platzi - May 2021
- AFL10021P: Arkho: Foundational Level**
ARKHO Academy - Mar 2023

HONOURS & AWARDS

Foodology Rocket: This is a recognition obtained for the great performance demonstrated in the organization, it is an award given to the top performers.
Keyrus recognition: "For its capacity for innovation in processes, for its contribution to the team and the achievement of objectives with efficiency in the project DESIGN AND IMPLEMENTATION OF ANALYTICS AND DATA LAKE MODELS SCENARIOS FOR PREVENTIVE AND COMMITTING FISCAL CONTROL."
